1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or render obvious the limitations as in claims 1,7,11 of the applicant to efficiently process packets during encapsulation, de-encapsulation, encryption, decryption, compression or de-compression processes in a packet transferring apparatus, comprising a processor selector for extracting identification information from a transport layer that denotes a characteristic of a data flow composed of an input packet from the packet and a processing selecting table for holding a pair of data items that are identification information and a processing to be performed for the packet in advance and a table searcher for searching information in the processing selecting table according to a search key, which is identification information extracted by the processor selector and a plurality of independent packet processors for processing the packet according to a result of searching in the table and a port selector for sending the processed packet, wherein the processor selector further extracts a transport layer state based on the identification information of the transport layer and the transport layer state indicates an arrival history of a packet with respect to each identification information of the transport layer.

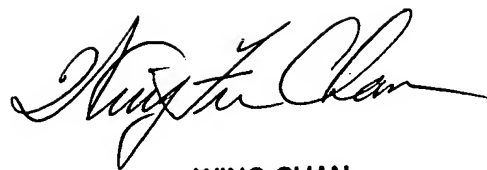

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
